

MLP Notation

26 February 2022 07:02

-> How many trainable parameters?

-> $(12+3) + (6+2) + (2+1) = 26$

-> Notation for Bias:

- b_{ij}
- i -layer
- j -node

-> Notation for Output:

- o_{ij}
- i -layer
- j -node

-> Notation for Weights

- w_{kij}
- k -layer it is going to

- i-node it is coming from
- j-node it is going to
